

# First Time Access to the Clean Building Portal

Commerce has launched the Clean Buildings Portal (Portal), a Clean Buildings reporting and management system. The system provides building owners secure access to manage their building's compliance with the Clean Buildings Performance Standard and their application with the Early Adopter Incentive Program.

**You will not be able to access the Portal or Guest Access without a notification code.** If you own a *covered commercial building* over 50,000 square feet and did not receive a notification letter with a code to access the Portal, [please complete this form](#).

Here are a few key features available in the Clean Buildings Portal:
